PO Box 3017
Fredericksburg, TX 78624

Many thanks from the Native Plant Society of Texas!

Native Plant Society of Texas Chapters

When you join the **Native Plant Society of Texas**, you become part of a statewide organization with over 2300 members. Most members also choose to join one of our chapters, at no additional cost. These chapters provide educational programs and activities on native Texas plants and related topics that are specific to their area of the state.

We encourage you to join a chapter. When you do, a portion of your dues is sent to the chapter to help cover expenses. If you don't live near a chapter or for any reason do not want to join a chapter, you may choose to become a member-at-large. All members, regardless of chapter affiliation, receive the quarterly newsletter.

New members will receive a membership packet in the mail within thirty days of joining. The packet will contain information about the **Native Plant Society of Texas** and chapter meeting place and times, along with recommended books. Your contact information will also be sent out to your primary chapter of choice and you will be contacted by the membership chairperson from that chapter.

Members may join up to three chapters (there is a nominal fee for joining extra chapters), so please indicate your choice on the membership application. There are places to note your primary and secondary chapter choices on the form. Current chapters are listed below.

Amarillo

Austin

Beaumont

Big Bend (*Brewster/Jeff Davis/Presidio Counties*)

Bluestem (*Victoria*)

General Information about the Native Plant Society of Texas

For more information about the **Native Plant Society of Texas** and our many programs, please visit our website at www.npsot.org, along with our companion website at www.txnativeplantweek.org, which has information about Texas Native Plant Week.

We encourage you to attend our Annual Symposium, traditionally held on the third weekend in October rotating through ecoregions around the state. This fun and educational event features expert speakers, field trips, workshops and a banquet where we present our annual awards. The symposium offers the opportunity to learn more about Texas native plants and meet other members from around the state.

You are also invited to attend our quarterly State Board meetings held on the third Saturday of January, April, July and October. Meetings are open to all members and by attending you will learn more about our programs and participate in planning for the future.
